EIB'S LENDING TO SUPPORT MSMES IN THE REGIONS SINCE 2010WEST AFRICACENTRAL AFRICA1,035M €555M €

The four components

The TA Programme is implemented with the help of the IPC/HORUS DF/IECD consortium and consists of four components serving Financial Institutions (FIs) and Micro, Small and Medium-sized Enterprises (MSMEs):

C1

- Support to FIs to fully consume EIB credit lines on creditworthy applications
- Make FIs compliant for (future) EIB credit lines

- Embed skills via training materials transmitted to local stakeholders
- Support the establishment of local banking academy structures

C2

- Support in credit risk management
- Support FIs technically and operationally through diversified, responsible and digitised financial services
 - Support key actors and stakeholders in the MSME ecosystem
- Organise outreach and awareness raising events to attract MSMEs to EIB FIs

EIB TA COVID-19 Response

The EIB TA Programme is well-prepared to meet FIs' needs during COVID-19 lockdowns and beyond. The experts have adapted the TA service offer to various delivery formats: Remote mentoring, crisis management handbooks, webinars, online resources, risk management tools, follow up tools and exchange tools tailored for the particular needs of each FI.
